PROFESSIONAL SUMMARY

Senior SDE-3 with **4+ years** building scalable, AI-powered enterprise applications. Leading frontend architecture at **EMB Global,** serving **50+ enterprise clients** managing **$6.8M+ deals**. Proven track record in React ecosystem, **team leadership**, and delivering high-impact solutions that drive **90% efficiency improvements**.

CORE EXPERTISE

Frontend: React.js • Next.js • TypeScript • JavaScript • Redux • React Query • Jest • HTML5 • CSS3
AI Integration: OpenAI • Anthropic Claude • OpenRouter SDK • Intelligent Chatbots
Performance: 95+ Lighthouse Scores • Code Splitting • Responsive Design • Optimization
UI/Design: Tailwind CSS • Material-UI • Shadcn UI • Enterprise Design Systems
Leadership: Team Mentoring • Code Reviews • Frontend Architecture • Agile/Scrum
Tools: Git • AWS • Firebase • Webpack • Vite • CI/CD • Jira

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer (SDE-3) | EMB Global | Apr 2025 – Present

• **Architected an AI-first hiring platform** serving 50+ enterprise clients, reducing hiring turnaround by **90%** and generating **$1.8M+ revenue pipeline**
• **Led team of 6 frontend engineers**, established coding standards, and improved team velocity by **40%**
• **Built an AI-powered hiring assistant** with OpenRouter SDK, cutting requirement generation time by **50%** and achieving **95+ Lighthouse scores**

Frontend Engineer (SDE-2) | EMB Global | Jul 2024 – Mar 2025

• **Developed Artha Admin Dashboard** managing **$5M+ deals** with real-time tracking and enterprise-grade RBAC implementation
• **Built client portal with AI-driven BRD generation**, increasing recurring engagement by **30%** and reducing setup time by **60%**
• **Collaborated cross-functionally** in an Agile environment, delivering features **25% faster** than previous iterations

Frontend Engineer (SDE-1) | EMB Global | Dec 2022 – Jun 2024

• **Built production-ready SNABBCOM e-commerce platform** enabling 24-hour store creation using React and responsive design
• **Led KAM Dashboard development** from scratch using Next.js 13, Redux Toolkit, and Tailwind CSS
• **Developed XDR security dashboard** with real-time data visualisation and system monitoring capabilities

Software Engineer | Infogain India Pvt. Ltd. | Apr 2021 – Dec 2022

• **Worked as an Azure Data Engineer** specialising in cloud-based data solutions and enterprise software architecture
• **Developed web applications** using JavaScript, Python, React, and Redux while gaining full-stack experience

KEY PROJECTS & ACHIEVEMENTS

🚀 **EMB Talent Platform:** AI-driven hiring platform with intelligent JD parsing, candidate matching, and automated interview scheduling. **Achieved 200% reduction** in hiring process time and **95+ client satisfaction scores**.

🤖 **AI-Powered BRD Generator:** MVP using OpenRouter SDK, enabling natural language requirement creation. **Streamlined workflows by 60%**.

📊 **Artha CRM & PMT Suite:** Multi-tenant CRM with project management capabilities, **improving efficiency by 30%** and **reducing payment delays by 20%**.

EDUCATION & TECHNICAL HIGHLIGHTS

Bachelor of Technology - Computer Science Engineering | DIT University, Dehradun | 2017-2021 | CGPA: 7.4

🏆 **IMPACT SUMMARY**
90% Hiring Efficiency • $5.8M+ Revenue Pipeline • 50+ Enterprise Clients • Team Leadership: 6 Engineers • 95+ Lighthouse Performance

STRENGTHS
• **Rapid Learning:** Azure Data Engineering → Frontend Leadership transition
• **Business Acumen:** ROI-driven development with deep client understanding
• **Innovation Pioneer:** AI-UI integration specialist within the organisation
• **Scalability Expert:** Systems handling 50+ concurrent enterprise clients
